### Programme

- 14:00 Welcome
- 14:10 Hartmut Löwen (Düsseldorf)  
*Stefan Egelhaaf, as I knew him*
- 14:30 Manuel A. Escobedo-Sánchez (Düsseldorf)  
*Random and directed motion detected by indirect imaging techniques*
- 14:50 Peter Schurtenberger (Lund)  
*Micelles, vesicles and equilibrium clusters - tales from a scientific journey with Stefan*
- 15:10 Roberto Cerbino (Vienna)  
*A (soft) matter of contrast(s)*
- 15:30 Wilson C. K. Poon (Edinburgh)  
*Differential dynamic microscopy for sizing turbid and multimodal suspensions*
- 15:50 Coffee Break
- 16:30 George Petekidis (Heraklion)  
*Probing particle motion in colloidal systems under shear*
- 16:50 Ramón Castañeda-Priego (Guanajuato)  
*From colloids in external periodic fields to dynamical arrest: collaboration Düsseldorf - Guanajuato*
- 17:10 Marisa Arenz, Anna Hülkenberg and Marc Fehr (Düsseldorf)  
*Memories of students*
- 17:30 Marco Laurati (Florence)  
*Microscopic mechanisms leading to the yielding and flow of colloidal glasses*
- 17:50 Closing remarks
